

Richmond Dispatch.

MONDAY.....MARCH 27, 1882.

(Published by Request.)

To Lucy One.

All half to three, thou favored lucky one!
Thy heart is numbered, and thy task is done.
And give thy heart the rest for which it grieves,
No more to grieve, no more to grieve.

The many limbs in handsome guise to dress;
Thou mayst find that greater than before.

May spring from green the leafy blossoms,

And make no more to grieve than to grieve.

Now we're done, henceforth, wind others

die.

And leap thy plumes from harsh New England's

wings.

They can't not share the pleasure, full and sweet

of this great day, that's bright and gay!

As with the sun the steaming vapor goes—

His income sweet ascending to thy nose—

And winsome rose of gloomy fruits

Are this, the balm to thy weary soul.

As of gold-brown berries greet thy sight,

Each thy embodiment of a new delight.

With what emotions will thou view the scene,

As they in rapture revolve round the board,

And each a double portion strive to hold?

Typical of all the joys that life can bring,

Ever ere before thy warded eyes.

At home, abroad, or in thy wavy haunts—

A spectral pair of Saks' matches, pair,

162-3,000.00.

Some New Geography,

NOR PEOPLE WHO HAVE NOT CUT THEIR EYES.

(From the Detroit Free Press.)

"Of what is the surface of the earth composed?"

"Of corner lots, mighty poor roads,

railroad tracks, base-ball grounds, cricket-fields, and skating-rinks."

"What portion of the globe is water?"

"About three-fourths. Sometimes they add a little gin and nutmeg to it."

"What is a town?"

"A town is a considerable collection of houses and inhabitants, with four or five men who run the party" and lend money at 15 per cent, interest."

"What is a city?"

"A city is an incorporated town, with a mayor who believes that the whole world shakes when he happens to fall flat on a crocodile."

"What is commerce?"

"Borrowing five dollars for a day or two and dodging the lender for a year or two."

"Name the different races."

"Horse-race, boat-race, bicycle-race, and racing around to find a man to endorse your name."

"How do many classes is mankind divided?"

"Six; being enlightened, civilized, half-civilized, savage, too utter, not-worth-a-cent Indians agents."

"What nations are called enlightened?"

"Those which have had the most wars, the worst laws, and produced the worst criminals."

"What is the earth's axis?"

"The lines passing between New York and Chicago."

"What causes day and night?"

"Day is caused by night getting tired out. Night is caused by everybody taking the street-car and going home to supper."

"What is a map?"

"A map is a drawing to show the jury where Smith stood when Jones gave him a lift under the eye."

WANTS.
